## Plan View

## Notes & Details

Keep your food hot and ready to serve with this Avantco 24" strip warmer with toggle control. Ideal for use in restaurants, cafeterias, and buffet lines, this strip warmer boasts thick insulation and an aluminum reflector to minimize heat loss and direct the heat to your food. It features a simple on / off toggle control for easy use.

This item requires a 120V electrical connection and provides an impressive 500 watts of heat. It includes a cord and plug so you can begin using it immediately, and it can be easily installed directly into overselves with the included mounting brackets or hung with support chains (sold separately). It boasts a heavy-duty stainless steel housing that won't sag, making it perfect for busy kitchen settings. The metal guards support the heating element without affecting heat distribution. Plus, the heating element is sheathed to help maintain temperature without drying the food out. For a simple and efficient way to keep your food hot before serving, try this strip warmer!
