Installation Type	Countertop
Number of Compartments	1 Compartment
Plug Type	NEMA 5-15P
Power Type	Electric
Style	Pourover
Temperature	80 - 212 Degrees F
Type	Hot Water Boilers
Usage	Standard Duty
Water Source	Pourover

## Plan View

## Notes & Details

Hot water is ready "on tap" with the Avantco 128 cup water boiler! This stainless steel tank heats and holds up to 19 liters or 5 gallon of hot water with a variable temperature control between 80 and 212 degrees Fahrenheit so that the next cup of tea, hot chocolate, or cider is just a simple pull of the spigot away. This hot water dispenser features a double-wall stainless steel body with a 2-way, non-drip spigot to effortlessly offer hot water on demand while minimizing spills.

Ideal for catering events, hotels, offices, churches, and schools, this Avantco water boiler is a part of complete beverage service at smaller venues. The boiler's cool-touch handle and convenient locking system ensure your safe use and comfortable transport, making it an excellent addition to catering operations. Its heating and keep-warm light help you monitor temperatures, while its boil-dry protection fuse offers added safety. It requires a 120V connection to operate.
