Notes & Details

Hot water is ready "on tap" with the Avantco 54 cup water boiler! This stainless steel tank heats and holds up to 8 liters or 2.1 gallons of hot water with a variable temperature control between 80 and 212 degrees Fahrenheit so that the next cup of tea, hot chocolate, or cider is just a simple pull of the spigot away. This hot water dispenser features a double-wall stainless steel body with a 2-way, non-drip spigot to effortlessly offer hot water on demand while minimizing spills.

Ideal for catering events, hotels, offices, churches, and schools, this Avantco water boiler is a part of complete beverage service at smaller venues. The boiler's cool-touch handle and convenient locking system ensure your safe use and comfortable transport, making it an excellent addition to catering operations. Its heating and keep-warm light help you monitor temperatures, while its boil-dry protection fuse offers added safety.
