- Allows unit to run freezing cycles and produce ice by tracking the time it's running
- Compatible with Avantco Ice HBN120-22

Certifications

Made in America

Notes & Details

This Avantco Ice 19412288101 cycle timer is a direct replacement for the one that came with your Avantco Ice ice dispenser. This cycle timer is a timing relay that allows your unit to run freezing cycles and produce ice by tracking the time it's running so the machine runs correctly. Use it to replace a worn or broken part. It's compatible with Avantco Ice HBN120-22 ice dispensers.
