Avantco Ice 19495921 Evaporator Coil for UC280 Half Cube Ice Machine

Item #19495921

Technical Data

Type

Evaporator Coils
Mechanical Parts

Features

- Direct replacement for original part
- Essential part of your unit's refrigeration system
- Designed for use with UC280 half size ice machine

Notes & Details

This Avantco 19495921 evaporator coil is a direct replacement for the one that comes with UC280 ice machines. An essential part of any refrigeration system, the evaporator coil runs refrigerant through a coiled frame, absorbing heat from the interior of the unit and cooling it down so it can effectively make ice.
