Avantco Ice CDIM-18 Mini Countertop Dry Ice Machine - 120V

Item #194CDIM18

Technical Data

Height	8 7/16 Inches
Diameter	7 13/16 Inches
Voltage	120 Volts
Color	Silver
Features	Case Included
Installation Type	Countertop
Material	Stainless Steel
Plug Type	NEMA 5-15P
Power Type	Electric
Type	Dry Ice Machines

Features

- Produces a 13/16" x 2 3/16" cylinder of dry ice in just 2 minutes
- Operates with a simple push of a button and stops automatically
- Includes a convenient carrying case with safety gloves
- Requires a liquid CO2 tank with siphon tube (sold separately)
- Perfect for creating eye-catching displays or keeping products cold

Certifications

Notes & Details

Create versatile dry ice with this Avantco Ice mini countertop dry ice machine. This unit is highly efficient, converting 2.09 lb. of liquid CO₂ into 0.41 lb. of dry ice in just 2 minutes, producing a 13/16" x 2 3/16" dry ice cylinder. Easy to use, this unit operates with a simple click of a button and stops automatically when the dry ice creation is complete. This machine features a durable stainless steel construction that is easy to clean, keeping your dry ice sanitary and hygienic.

Use this dry ice machine to create eye-catching displays at special events or to keep perishable products cold. This 11 lb. unit includes a convenient carrying case to make transporting and storage easy and also comes with gloves for safe handling. The machine has 4 rubber feet underneath to keep it stable during use and can optionally be mounted onto a countertop with screws. This dry ice machine includes a 4' 15/16" gas line and requires a CO₂ tank with siphon tube to operate (sold separately). We recommend using this with a 20 lb. CO₂ tank or larger for optimal results. This unit also requires a 120V electrical connection. Easily create a show-stopping display with this Avantco Ice mini countertop dry ice machine.
