## Notes & Details

Make sure you've always got plenty of fresh ice on hand with this Avantco Ice Diamond ice machine! This ice machine boasts a space-saving undercounter design, and it has front-facing ventilation for built-in unit installation. It produces up to 223 lb. of half cube ice per day and stores up to 77 lb. of ice in its built-in ice bin. It is easy to use with a lighted on / off rocker switch on its front panel, and it operates using R-290 refrigerant for reduced energy usage. This ice machine features a robust 4-column frame made of AISI 304 stainless steel for long-lasting durability.

This ice machine has a cleaning mode that circulates water and a descaling agent without activating cooling. It includes a sealless pump to prevent wear and tear in hard water conditions. Each of its exterior panels can be removed independently to simplify maintenance. This ice machine has stainless steel legs that adjust up to 1" for leveling on uneven surfaces and easy cleaning underneath. It requires a 115V electrical connection for operation.
