

Item #: 194KMC420L2H Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice KMC-420-L2H 22" Air Cooled Modular Half Cube Ice Machine with Ice Bin - 420 lb.

Item #194KMC420L2H

Technical Data

Width	22 Inches
Depth	34 Inches
Height	66 3/8 Inches
Bin Width	22 Inches
Bin Depth	34 Inches
Bin Height	44 Inches
Amps	9.4 Amps
Voltage	115 Volts
24 Hour Ice Yield	420 Pounds
Ambient Temperature Range	40 - 90 Degrees F

Features

- Makes up to 420 lb. of half cube ice per day; Ice storage bin capacity 383 lb.
- Durable metallic alloy exterior with a polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Includes bright LED lights and a removable air filter
- R290 refrigerant; 115V

Certifications

 5-15P

 ETL Sanitation

 ETL, US & Canada

 3/4" Water Connection

 NSF Listed

Technical Data

Bin Storage Capacity	383 lb.
BTU Per Hour	3207 BTU
Condenser Type	Air Cooled
Drain Outlet Size	3/4 Inch
Exterior Material	Metallic Alloy
Features	LED Lighting NSF Listed
Ice Type	Half Size Cubes
Installation Type	Modular
Interior Material	Polyethylene
Plug Type	NEMA 5-15P
Power Usage	5.2 kWh per 100 lbs.
Refrigerant Type	R-290
Type	Ice Machines with Bins
Water Inlet Size	3/4 Inches
Water Pressure Range	18 3/4 - 80 PSI
Water Temperature Range	40 - 90 Degrees F
Water Usage	15 Gallons Per 100 lbs.

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice KMC-420-L2H 22" air cooled modular full cube ice machine with bin! Capable of producing up to 420 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. An included ice bin holds up to an impressive 383 lb. of ice, making it ideal for busy establishments that can not afford long periods of down-time while ice is being made. The ice bin features a durable metallic alloy exterior with a polyethylene interior. Also included is an ice scoop and a hook to hang it on so it is always within convenient reach when you need it.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Plus, the ice bin has a 3/4 FTP drain fitting.

The ice machine is constructed of durable metallic alloy with a polyethylene interior to last in the busiest of commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
