Qty: _____ Date: _____ Approval: _____

Avantco Ice KM-N-522-BA 22" Air Cooled Modular Nugget Ice Machine with 275 lb. Bin - 550 lb.

Item #194KMN522BA

Technical Data

Width	22 Inches
Depth	24 3/8 Inches
Height	24 3/16 Inches
Bin Width	22 Inches
Bin Depth	32 11/16 Inches
Bin Height	45 5/16 Inches
Hertz	60 Hz
Phase	1 Phase
Voltage	115 Volts
24 Hour Ice Yield	550 Pounds

Features

- Makes up to 550 lb. of nugget ice per day
- Durable 304 stainless steel exteriors with polyethylene interiors
- Digital controller allows user to quickly identify issues
- Bright LED lights illuminate the ice bin
- Kit includes ice machine, ice bin, and ice scoop

Certifications

5-15P

3/4" Water Connection

ETL Sanitation

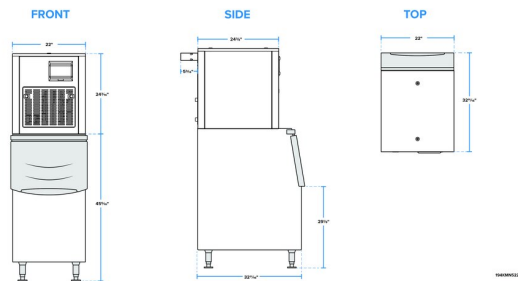

ETL, US & Canada

Technical Data

Bin Storage Capacity	275 lb.
Color	Silver
Condenser Type	Air Cooled
Features	LED Lighting
Ice Type	Nugget
Installation Type	Freestanding
Interior Material	Polyethylene
Material	Stainless Steel
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Stainless Steel Type	Type 304
Type	Ice Machines with Bins
Water Inlet Size	3/4 Inches

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice air cooled modular nugget ice machine with bin! Capable of producing up to 550 lb. of nugget ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. An included ice bin holds an impressive 275 lb. of ice, making it ideal for busy establishments that can not afford long periods of downtime while ice is being made. The ice bin features bright LED lights and a convenient lift-up door that stays open when fully lifted to provide easy access to the ice inside. Also included is a sanitary ice scoop and a hook to hang it on inside the bin for easy storage.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. Plus, a removable air filter makes for quick and simple cleaning and maintenance.

This ice machine with bin is constructed of durable 304 stainless steel with a polyethylene interior to last in the busiest of commercial environments. It is also non-corrosive, making it ideal for settings that are high in moisture and humidity. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. Integrated spacers included on the back of the machine ensure required airflow needed to keep your unit from overheating. It also uses R-290 refrigerant, and the ice bin drain pipe comes from underneath the backside. This unit requires a 115V electrical connection for operation.

Kit Includes:

- Avantco Ice MN522A 22" air cooled modular nugget ice machine - 550 lb.
- Avantco Ice BIN23022 22" ice storage bin - 275 lb.
- Sanitary ice scoop
