

Item #: 194KMN522HA Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice KM-N-522-HA 22" Air Cooled Modular Nugget Ice Machine with Dispenser - 550 lb.

Item #194KMN522HA

Technical Data

Width	22 Inches
Depth	24 3/8 Inches
Height	24 3/16 Inches
Ice Dispenser Width	22 Inches
Ice Dispenser Depth	33 1/2 Inches
Ice Dispenser Height	47 1/4 Inches
Phase	1 Phase
Voltage	115 Volts
24 Hour Ice Yield	550 Pounds
Bin Storage Capacity	120 lb.

Features

- Makes up to 550 lb. of nugget ice per day
- Durable 304 stainless steel exteriors with polyethylene interiors
- Digital controller allows user to quickly identify issues
- Removable air filter allows for quick cleaning
- Kit includes ice machine and ice dispenser
- Note: only the ice machine holds the ETL certification

Certifications

5-15P

3/4" Water Connection

ETL Sanitation

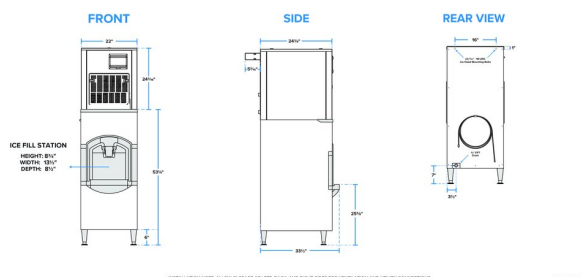

ETL, US & Canada

Technical Data

Color	Silver
Condenser Type	Air Cooled
Dispenser Style	Push Button
Ice Type	Nugget
Installation Type	Freestanding
Interior Material	Polyethylene
Material	Stainless Steel
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Stainless Steel Type	Type 304
Type	Ice Machines / Dispensers
Water Inlet Size	3/4 Inches

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice air cooled modular nugget ice machine with dispenser! Capable of producing up to 550 lb. of nugget ice per day, you'll always have plenty of ice to serve on demand at your hotel, bar, or cafe. An included ice dispenser holds up to 120 lb. of ice and features a push chute for simple ice dispensing, as well as a deep sink to accommodate hotel ice buckets of almost any size. A removable top panel allows access to the bin for easy cleaning without having to remove the ice machine, and the bin is even made with polyurethane insulation to help preserve your ice supply for longer periods of time!

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. Plus, a removable air filter makes for quick and simple cleaning and maintenance.

Constructed of durable 304 stainless steel with a polyethylene interior, this unit is corrosion-resistant and built to last in the busiest commercial environments. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. Integrated spacers included on the back of the machine ensure required airflow needed to keep your unit from overheating. It also uses R-290 refrigerant. This unit requires a 115V electrical connection for operation.

Kit Includes:

- Avantco Ice MN522A 22" air cooled modular nugget ice machine - 550 lb.
- Avantco Ice HBN120-22 22" wide hotel ice dispenser 120 lb. capacity - 115V
