Avantco Ice MC-420-22-FA 22" Air Cooled Modular Full Cube Ice Machine -399 lb.

Item #194MC42022FA

AVANTCO

Technical Data

22 Inches
24 3/8 Inches
22 3/8 Inches
9.4 Amps
60 Hz
1 Phase
115 Volts
399 Pounds
40 - 90 Degrees F
3207 BTU

Features

- Makes up to 399 lb. of full cube ice per day •
- Durable 304 stainless steel exterior with a polyethylene interior •
- Digital controller allows user to quickly identify issues and the current stage of production
- Includes bright LED lights and a removable air filter •
- R290 refrigerant; 115V; NEMA 5-15P •

Certifications

ETL Sanitation ETL, US & Canada

34" 3/4" Water Connection

ICE MACHINES

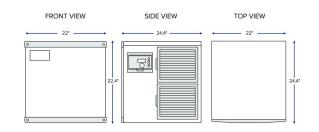

Project: _____ Item #: 194MC42022FA

Tech	nical	Data

Condenser Type	Air Cooled
Ісе Туре	Full Size Cubes
Installation Type	Modular
Material	Stainless Steel
Plug Type	NEMA 5-15P
Power Usage	5.2 kWh per 100 lbs.
Refrigerant Type	R-290
Туре	Ice Machines
Water Inlet Size	3/4 Inches
Water Pressure Range	18 3/4 - 80 PSI
Water Temperature Range	40 - 90 Degrees F
Water Usage	15 Gallons Per 100 lbs.

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice MC-420-22-FAF 22" air cooled modular full cube ice machine! Capable of producing up to 399 lb. of full cube ice per day, you'll always have plenty of ice to serve on demand. At only 22" in width, this narrow unit is great for tight bars, kitchens, and coffee shops. For ease of maintenance, a built in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
