Avantco Ice MN-522-A 22" Air Cooled Modular Nugget Ice Machine - 550 lb.

Item #194MN522A

Technical Data

| | |
|-------------------|----------------|
| Width | 22 Inches |
| Depth | 24 3/8 Inches |
| Height | 24 3/16 Inches |
| Hertz | 60 Hz |
| Phase | 1 Phase |
| Voltage | 115 Volts |
| 24 Hour Ice Yield | 550 Pounds |
| Color | Silver |
| Condenser Type | Air Cooled |
| Features | LED Lighting |

Features

- Makes up to 550 lb. of nugget ice per day
- Durable 304 stainless steel exterior
- Digital controller allows user to quickly identify issues
- Removable air filter allows for quick cleaning
- Integrated spacers allow quality airflow

Certifications

5-15P

3/4" Water Connection

ETL Sanitation

ETL, US & Canada

Technical Data

| | |
|----------------------|-----------------|
| Ice Type | Nugget |
| Installation Type | Modular |
| Material | Stainless Steel |
| Plug Type | NEMA 5-15P |
| Refrigerant Type | R-290 |
| Stainless Steel Type | Type 304 |
| Type | Ice Machines |
| Water Inlet Size | 3/4 Inches |

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice air cooled modular nugget ice machine! Capable of producing up to 550 lb. of nugget ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in.

Constructed of durable 304 stainless steel, this unit is built to last in the busiest commercial environments. A removable air filter makes for quick and simple cleaning and maintenance. Integrated spacers included on the back of the machine ensure required airflow needed to keep your unit from overheating. It also uses R-290 refrigerant. This unit requires a 115V electrical connection for operation.
