

Item #: 194UCB77A Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice UC-B-77-A 14 13/16" Air Cooled Undercounter Bullet Ice Machine - 96 lb.

Item #194UCB77A

Technical Data

Width	14 13/16 Inches
Depth	22 11/16 Inches
Height	30 Inches
Amps	6 Amps
Hertz	60 Hz
Phase	1 Phase
Voltage	115 Volts
24 Hour Ice Yield	96 Pounds
Ambient Temperature Range	40 - 90 Degrees F
Average Running Decibels	64 Decibels

Features

- Durable 304 stainless steel exterior with a polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Includes a removable air filter for quick cleaning and maintenance
- R290 refrigerant; 115V; NEMA 5-15P
- Unit makes up to 96 lb. of bullet ice per day while storing up to 33 lb.

Certifications

5-15P

ETL, US & Canada

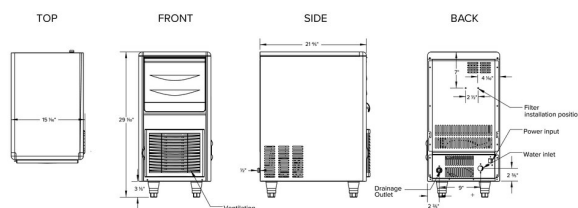

3/4" Water Connection

Technical Data

Bin Storage Capacity	33 lb.
BTU Per Hour	1570 BTU
Color	Silver
Condenser Type	Air Cooled
Ice Type	Bullet Ice
Installation Type	Undercounter
Material	Stainless Steel
Max Fuse Size	15 Amps
Net Weight	77 lb.
Plug Type	NEMA 5-15P
Power Usage	10.59 kWh per 100 lbs.
Refrigerant Type	R-290
Type	Ice Machines with Bins
Water Inlet Size	3/4 Inches
Water Pressure Range	18 3/4 - 80 PSI
Water Temperature Range	40 - 90 Degrees F
Water Usage	22 Gallons Per 100 lbs.

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice UC-B-77-A 14 13/16" air cooled undercounter full cube ice machine! Capable of producing up to 96 lb. of bullet ice per day, these narrow foot print undercounters are great for the tight space needs of busy restaurants, bars or cafes. Plus, the shape of the bullet ice (also known as top hat ice or gourmet ice) is great for keeping beverages colder for longer periods. The narrow foot print design is great for saving on space and includes an 33 lb. bin to hold ice once it is made. For ease of maintenance, a built in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly.

This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With 4 adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. This unit requires a 115V electrical connection for operation.
