Avantco Z-1F2-N 17 11/16" Stainless Steel Solid Half Door Narrow Reach-In Freezer

Item #178Z1F2N

Technical Data

Width	17 11/16 Inches
Depth	31 15/16 Inches
Height	81 5/8 Inches
Interior Width	13 15/16 Inches
Interior Depth	24 7/16 Inches
Interior Height	61 Inches
Amps	2.6 Amps
Hertz	60 Hz
Phase	1 Phase
Voltage	115 Volts

Features

- Corrosion-resistant stainless steel interior and exterior
- Self-closing and stay-open locking solid doors
- Interior features full-size food pan slides and a perforated rear plenum
- Cabinet and maintenance alarms will sound and display on Carel iJ controller
- Top-mounted 1/2 hp compressor uses R-290 refrigerant

Certifications

ETL Listed

5-20P

Technical Data

Access Type	Doors
Capacity	10.52 cu. ft.
Casters	With Casters
Color	Silver
Compressor Location	Top Mounted
Construction	All Stainless Steel
Door Style	Swing
Door Type	Solid
Dutch Half Doors	With Dutch Half Doors
Features	Automatic Electric Defrost Corrosion-Resistant Digital Display Digital Temperature Controller Locking Doors Narrow Body Self-Closing Doors Stay-Open Doors
Hinge Location	Right
Horsepower	1/2 hp
Installation Type	Freestanding
Number of Doors	2 Doors
Number of Shelves	3 Shelves
Plug Type	NEMA 5-20P
Refrigerant Type	R-290
Sections	1 Section
Temperature Range	-8 - 0 Degrees F
Type	Freezers

Notes & Details

Receive performance you can depend on with this Avantco 17 11/16" stainless steel solid half door narrow reach-in freezer! Your establishment relies on refrigeration for proper food safety, whether you're storing pre-made portions of your signature dishes, frozen french fries, or frozen ingredients. With this reach-in freezer, your ingredients and fully prepared foods will stay at safe frozen temperatures. For optimal temperature retention, the entire cabinet is foamed-in-place using polyurethane insulation. Other helpful features include the state-of-the-art Carel iJ controller and automatic defrosting.

A corrosion-resistant stainless steel interior and exterior construction provides increased durability, keeps out moisture, and resists rust. The perforated rear plenum ensures evenly distributed airflow throughout, allowing you to load the unit with bulky items without impeding circulation. Digital temperature control allows you to easily adjust the temperature of your freezer's cabinet. Plus, the automatic defrost function keeps food fresh and properly chilled! The controller's audible alarms alert you to temperatures that are too high or too low, extended door opening, and the need to clean the unit's condenser.

This freezer features two half doors that offer a sleek appearance and keep your inventory protected thanks to its ability to lock. Since this model has half doors, you're able to keep other food cold if you're only opening half of the freezer space at a time. The self-closing and stay-open solid doors allow users to load the freezer quickly and easily after a delivery, while full-length U-shaped door handles further expedite the loading process. This unit features 3 plastic-coated steel shelves that fit in the freezer's versatile shelf-rail design. These slides support 33% more weight than shelf clips and can be used to hold full size food pans (sold separately).

Designed to maintain temperatures from -8 to 0 degrees Fahrenheit, this freezer boasts a top-mounted 1/2 hp compressor that uses R-290 refrigerant. In addition, the top-mounted compressor is further from the floor than on a bottom-mounted unit, meaning it'll get less dirty and won't be accidentally kicked. It requires a 115V electrical connection for operation.
