Notes & Details

Showcase everything from cakes and pies to eclairs and flan in this Avantco BCT-36 37" black 3-shelf curved glass refrigerated bakery display case! Perfect for bakeries, cafes, coffee shops, and diners, the unit includes 3 glass shelves with price tag holders to help display and organize products. In addition to the glass shelves, the base of the unit can be used as a fourth shelf or display area for extra capacity.

Designed with double paned glass panels on 3 sides and sliding glass rear doors, the case provides maximum product visibility, tempting customers by showing off your decadent desserts from every angle. The sleek frame ensures that the beautiful case fits seamlessly into your business, while the curved front offers a clean presentation. Condensation removal with front glass venting prevents the front of the cabinet from fogging so that the view of your offerings is never obstructed. Plus, LED lighting is built into each shelf, illuminating the product for a bright, enticing display.

This bakery case ensures optimal performance with a 1/2 hp refrigeration system that circulates R-290 hydrocarbon refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R-290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. Automatic defrost and a digital temperature control provide ease of use.

This unit includes a set of casters to make it easy to move for cleaning and service. A 115V electrical connection is required for operation.
