Notes & Details

Display your grab and go items in style while keeping them chilled with this Avantco 35 1/2" white refrigerated air curtain merchandiser! This merchandiser features bright, cool LED lighting to show off your products at their best and an attractive lightbox to draw attention. Plus, the partial glass sides allow increased visibility and makes for a more attractive presentation. Whether you are selling cold, bottled drinks or pre-packaged grab-and-go snacks, this air curtain gives you the opportunity to let your products sell themselves. It comes with 4 adjustable coated steel shelves, so you can organize and load your air curtain merchandiser with confidence.

This air curtain merchandiser has digital controls to make it easy to keep an eye on the interior temperature. The unit has a temperature range of 33-40 degrees Fahrenheit. It operates using a 1 hp compressor and R-290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3.

For outstanding durability, this air curtain merchandiser is made of coated steel inside and out. To help maintain the cold interior temperatures, this unit has foamed-in-place polyurethane insulation. The insulation also adds structural strength and rigidity. Also, this unit has an automatic defrost cycle, so your staff doesn't need to spend valuable time clearing out ice. Plus, it has casters to make it easy to move the unit away from the wall for cleaning and maintenance. To help save energy during off hours, this model comes with a night cover. A drain pan heater helps evaporation of condensation, and an optional drain is included that can be utilized if the unit is producing excess condensation. This unit requires a 115V electrical connection for operation.
