Notes & Details

Add ice cream or frozen novelties to your business and boost impulse sales with the help of this Avantco 26 3/16" curved top display freezer. Thanks to a spacious interior this freezer is an excellent choice for convenience stores, diners, and markets. The locking glass lids protect your cold treats during off hours, while the crystal-clear visibility and LED lighting show off the products within.

This freezer's front-facing temperature control is tamper-proof, preventing accidental adjustment and ensuring that the quality of your frozen treats won't be compromised. The temperature control can be adjusted easily with a screwdriver when necessary.

The interior is made of embossed aluminum, while the exterior is made of white powder-coated steel, ensuring durability and longevity in your commercial environment. Two PVC-coated baskets are included to help organize the freezer's contents and keep smaller items within easy reach of your customers.

The included casters make it easy to move the unit for cleaning and maintenance. The freezer's bottom-mount compressor uses R-290 refrigerant to deliver consistent temperatures between -8 and -4 degrees Fahrenheit. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. Plus, a drain and plug make cleaning and defrosting the interior a breeze. It comes with custom vinyl, and a 115V electrical connection is required for operation.
