Display Height	1/2 Inch
Tip Diameter	1 1/2 Millimeters
Accuracy	+/- 2 Degrees
Color	Assorted
Display Type	Digital
Maximum Temperature	300 Degrees C 572 Degrees F

Technical Data	
Features	Antimicrobial Automatic Shutoff Color Coded Lanyard Included Magnetic NSF Listed Thin Tip
Minimum Temperature	-50 Degrees C -58 Degrees F
Temperature Reading	Celsius Fahrenheit
Type	Folding Thermometers Probe Thermometers Thermometers

Notes & Details

The AvaTemp 3" digital folding probe thermometer set is a must-have tool in any kitchen! Your foods need to be cooked and held within the proper time and temperature constraints, making it vital to have thermometers that you can count on to quickly give an accurate reading. This set comes with 1 blue, 1 red, and 1 yellow thermometer to help with color coding in your kitchen. They are portable and easy to use, and have a folding capability that makes them compact and protects the probes for long-lasting use. They have temperature ranges of -58 to 572 degrees Fahrenheit and -50 to 300 degrees Celsius, with +/- 2 degrees of accuracy for efficient use. Plus, the large 1 5/8" x 1/2" LCD displays create a clear and easy-to-read display so that you can quickly tell the temperature.

The 1.5mm thin tips are FDA recommended, and provide a fast response while taking temperature of delicate foods. The antimicrobial additives further improves safety by inhibiting bacteria growth. For easy mounting and storage, each thermometer has both a magnet and lanyard for added convenience. These units will automatically turn on when you unfold the probe, and automatically turn off after 10 minutes or when the probe is closed to conserve your battery. One LR44 battery is included with this set.

AvaTemp provides a thermometer to fit virtually every need in your kitchen. Pocket probe thermometers come in both digital and dial readouts and specialty products range from meat probes to refrigerator / freezer thermometers. These and the color-coded HACCP options help keep your business in compliance with safe cooking and holding temperatures. For reliability in the kitchen, AvaTemp delivers easy-to-use and cost effective food safety solutions.
