

#914FT450ARD

Project: _____

Approval: _____ Date: _____

- -58 to 572 degrees Fahrenheit (-50 to 300 degrees Celsius) with +/- 2 degrees accuracy
- Large 1 5/8" x 1/2" digital LCD display
- Compact folding design to keep probe secure
- Antimicrobial additive inhibits bacteria growth
- Magnet and lanyard for easy mounting and storage

NSF NSF Listed Antimicrobial

Stem Length	3 Inches
Display Width	1 5/8 Inches
Display Height	1/2 Inch
Tip Diameter	1 1/2 Millimeters
Accuracy	+/- 2 Degrees
Color	Red
Display Type	Digital
Maximum Temperature	300 Degrees C 572 Degrees F

Technical Data	
Features	Antimicrobial Automatic Shutoff Color Coded Lanyard Included Magnetic NSF Listed Thin Tip
Minimum Temperature	-50 Degrees C -58 Degrees F
Temperature Reading	Celsius Fahrenheit
Type	Folding Thermometers Probe Thermometers Thermometers

Notes & Details

This AvaTemp 3" red digital folding probe thermometer with a magnet is a must-have tool in any kitchen! Your foods need to be cooked and held within the proper time and temperature constraints, making it vital to have a thermometer that you can count on to quickly give an accurate reading. This tool is a perfect companion to chefs and kitchen staff because of its portability and ease of use! Its folding capability not only makes the unit compact, but it helps protect the probe from damage, providing long-lasting convenience to benefit your operation. This tool has a temperature range of -58 to 572 degrees Fahrenheit and -50 to 300 degrees Celsius, with +/- 2 degrees of accuracy for efficient use. Plus, a large 1 5/8" x 1/2" LCD display creates a clear and easy-to-read display so that you can quickly tell the temperature.

The 1.5mm thin tip is FDA recommended, and provides a fast response while taking temperature of delicate foods. An antimicrobial additive further improves safety by inhibiting bacteria growth, while the red color is perfect for use with red meat and helps with color-coding in your kitchen. For easy mounting and storage, this tool has both a magnet and lanyard for added convenience. The thermometer will automatically turn on when you unfold the probe, and automatically turn off after 10 minutes or when the probe is closed to conserve your battery. One LR44 battery is included with this thermometer, and only 1 is needed for operation.

AvaTemp provides a thermometer to fit virtually every need in your kitchen. Pocket probe thermometers come in both digital and dial readouts and specialty products range from meat probes to refrigerator / freezer thermometers. These and the color-coded HACCP options help keep your business in compliance with safe cooking and holding temperatures. For reliability in the kitchen, AvaTemp delivers easy-to-use and cost effective food safety solutions.
