Notes & Details

Ensure food safety and a consistent final product with this AvaTime digital dual event 24 hour kitchen timer with clock. This timer boasts a wide variety of features and functions at an economical price point. Including a two-event timer, a clock, and an alarm clock function, this product is designed for ultimate convenience. It can time two events simultaneously, counting up and down from 23 hours, 59 minutes, and 59 seconds. It operates with a large, 2 5/16" x 1" LCD screen for easy viewing and can be used as a regular clock when the timing function is not in use. Plus, thanks to its memory function, you can easily recall and reuse the previous time setting on each of the timer events.

This timer features a loud ring and a switch on the back that allows you to select either alarm mode or silent mode, indicated by a red LED light. It comes with (1) AAA battery and can be placed virtually anywhere in your kitchen. Place it on metal surfaces, hang it, set it on countertops, or affix it to apron pockets with the included magnet, loop, stand, and clip. This digital timer is just what your kitchen needs to stay up to speed
