

**AvaWeigh MSB440 440 lb. / 200 kg.  
Eye-Level Mechanical Beam  
Physicians Scale with Height Rod**

#177MSB440

Item #: 177MSB440 Qty:

Project:

Approval: \_\_\_\_\_ Date: \_\_\_\_\_

## Features

- 14 3/4" x 10 13/16" platform with removable anti-slip plastic base cover for easy cleaning
- Retractable aluminum height rod measures 23" - 83" high
- Easy-to-read dual beam with a cast iron lever system
- Heavy-duty steel base with casters for mobility
- Perfect for use in healthcare facilities and gyms

## Technical Data

Height	58 7/16 Inches
Platform Width	14 3/4 Inches
Platform Depth	10 13/16 Inches
Casters	With Casters
Display Type	Beam
Function Type	Height Weight
Increments	0.25 Pounds 100 Grams 200 Kilograms

Technical Data	
Platform Material	Steel
Power Type	Manual
Type	Physicians Scales

## Notes & Details

The AvaWeigh MSB440 440 lb. eye-level mechanical beam physicians scale is a must-have fixture in healthcare and medical facilities. With a 14 3/4" x 10 13/16" platform, it weighs up to 440 lb. and uses a cast iron lever system and die cast aluminum beam to assess weight. Simply have patients stand on the platform and move the horizontal lever to a balanced position. At the end of the day, remove the anti-slip plastic base cover for easy cleaning.

For added convenience, the scale includes a retractable aluminum height rod for assessing height from 23" - 83". This eliminates the need for a separate height chart, condensing the basic assessors of health to a single footprint that doesn't require an outlet or batteries or operate. Plus, because it's a manual mechanism, the scale can easily roll on its built-in casters from place to place, accommodating the needs of your patients or facility.

This traditional physician's scale, designed for longevity, boasts a heavy-duty steel base. The base and the scale's other sturdy components provide plenty of strength to last through years of doctors' visits, annual physicals, or even workouts at the gym.

**Readout Measurements:**

440 lb. x 200 kg  
0.25 lb. x 100 g
