Wattage	6 Watts
Adapter Voltage	100 - 240 Volts
Battery Type	Rechargeable
Battery Voltage	6 Volts
Casters	With Casters

Technical Data	
Display Type	Digital
Function Type	BMI Height Weight
Increments	300 Kilograms 600 Pounds
Platform Material	Steel
Plug Type	NEMA 1-15P
Power Type	Battery Electric
Type	Physicians Scales

Notes & Details

Upgrade from manual to digital with the AvaWeigh MSD600 600 lb. digital BMI physicians scale. As a must-have in healthcare and medical facilities, as well as in schools and gyms, a scale provides the opportunity to assess an individual's weight as a factor of good health. This scale extends that traditional functionality by measuring both weight and BMI. Plus, it can print results for convenient record-keeping.

An easy-to-read 1" LCD, backlit display shows 6 digits at a time and is housed in an ABS indicator. It also features the 4 keys for operation, which include ZERO/ON/OFF, UNITS/BMI, TARE, and HOLD/PRINT. A 12V CD 500mA adapter and rechargeable battery are both included to power the scale.

Easy to clean, this scale boasts a powder-coated, mild steel platform with a removable anti-slip platform cover. The platform is also outfitted with a set of casters to make it mobile. For added convenience, the scale includes a retractable aluminum height rod for assessing height from 23" - 83". Whether used at the doctors' office for annual check-ups or at the schools' infirmary, this physicians scale brings the common mechanical beam scale into the modern day.

Readout Measurements:

600 lb. x 300 kg
0.2 lb. x 0.1 kg
