NTEP Approved

Width	21 11/16 Inches
Depth	18 9/16 Inches
Platform Width	21 11/16 Inches
Platform Depth	16 9/16 Inches
Wattage	5.4 Watts
Adapter Voltage	100 - 240 Volts
Battery Type	AA
Capacity	150 lb.
Display Type	Digital
Material	Steel

Technical Data		
Features		Legal For Trade Tower Display
Increments		0.01 Kilograms 0.02 Pounds
Platform Material		Stainless Steel
Plug Type		NEMA 1-15P
Power Type		Battery Electric
Style		Dual Reading
Type		Bench Scales

Notes & Details

When accepting or shipping deliveries, use this AvaWeigh BS150TX 150 lb. digital receiving bench scale to confirm package weight. It features a stainless steel 21 11/16" x 16 9/16" platform for placing product and a tall tower with an easy-to-read, 1" tall LCD display. This display is backlit and shows 6 digits at a time, which allows for more precise and visible readings. Plus, it includes both USB and RS232 ports for easy record keeping.

Because the scale is certified legal for trade, it can also be used for preparing orders or shipping packages. Functions aren't just limited to weighing, either. It includes part counting, percentage weighing, check weigh, and accumulation functions. While each function enhances convenience, it also makes the scale more versatile. From the receiving area to the back-of-house to the mail room, this scale offers great features to keep your operation on the right track.

A steel construction and aluminum alloy indicator provide durability as well, while the adjustable feet ensure the platform is always level. A level platform is important when weighing objects that might otherwise roll or slide. An AC adapter is included to power the scale, though it can also run on 4 AA batteries for wireless operation.

Readout Measurements:

150 lb. x 0.02 lb.
60 kg x 0.01 kg
