Material	Steel

Technical Data	
Increments	0.05 Kilograms 0.1 Pounds
Plug Type	NEMA 1-15P
Power Type	Battery Electric
Style	Dual Reading
Туре	Bench Scales

Notes & Details

When accepting or shipping deliveries, use this AvaWeigh BS330T 330 lb. digital receiving bench scale to confirm package weight. It features a stainless steel 15 3/4" x 11 13/16" platform for placing product and a tall tower with an easy-to-read, 1" tall LCD display. This display is backlit and shows 6 digits at a time, which allows for more precise and visible readings. Plus, it include both USB and RS232 ports for easy record keeping.

Functions aren't just limited to weighing, either. It includes part counting and accumulation functions. While each function enhances convenience, it also makes the scale more versatile. From the receiving area to the back-of-house or mail room, this scale offers great features to keep your operation on the right track.

A steel construction and ABS housing indicator provide durability as well, while the adjustable feet ensure the platform is always level. A level platform is important when weighing objects that might otherwise roll or slide. A 12V AC adapter is included to power the scale, though it can also run on its 6V rechargeable battery for wireless operation.

Readout Measurements:

330 lb. x 0.1 lb. 150 kg x 0.05 kg
