Type	Commercial Hanging Scales Hanging Scales

Notes & Details

This AvaWeigh HSD20 22 lb. digital hanging scale can be used as a fish scale, industrial scale, produce scale, and more which makes it the epitome of functionality and convenience. This scale's 22 lb. weight limit makes it ideal for weighing everything from produce and raw meats to hardware and recyclables. Its simplicity and durability make it perfect for the farmers market, butcher, grocery store, or restaurant where accurate weight readings are vital to successful sales. Its display increments of .01 lb. allow for extreme precision. This scale features rugged ABS plastic housing with a stainless steel hook and shackle to ensure long-lasting durability. Its simple hook mechanism for hanging means you can conserve on precious countertop space, and its portability makes it great for a wide variety of locations and applications and easy to use on the go.

Never make a reading mistake with this digital LCD display, which is backlit in green to make viewing a breeze even in poor lighting conditions. For added convenience, this scale features kilogram and pound settings as well as a battery-saving auto-off function. The scale's tare function can be particularly helpful as it allows you to easily weigh products and ingredients while still in the container. Requires 2 AAA batteries (sold separately).
