Notes & Details

Make monitoring portion sizes quick and easy with this AvaWeigh PC20OS 20 lb. digital portion control scale with oversized platform. Keep customer satisfaction high in your foodservice industry by practicing good portion control, which adds to the consistency of a product. This scale will also help you reduce waste and ensure your employees aren't overusing expensive ingredients.

This scale also comes equipped with an adjustable auto-off function which can be modified from 0-9 minutes to help conserve power when the scale is not in use for a period of time. The auto-off function can be turned off completely if you are using the scale all day with any period of time in between. The scale has a simple 2-key operation with on/off/zero and tare/unit buttons, improving ease of use and reducing complications. The scale's convenient tare function can be particularly helpful as it allows you to easily weigh products and ingredients while still in the container.

The AvaWeigh PC20OS scale has a large, stainless steel 11 3/4" x 9" weighing platform with a beveled edge and is removeable for easy cleaning and maintenance. Measure larger products and portions than ever before with the oversized platform that will meet all of your product weighing needs. The large .68" crystal clear LCD display includes a backlight option, perfect for reading the scale at a glance in any lighting. To add to this scale's versatility, it has the ability to read in either pounds or grams to ensure the perfect portions for any recipe. For increased flexibility, this scale can be operated using the included AC adapter or with 4 AA batteries (sold separately) so that you can move it around your kitchen wherever it's needed. Adjustable feet and a leveling bubble on the front of the scale ensure that this scale can be set up on any surface.

Readout Measurements:

20 lb. x 0.1 oz.
10 kg x 2 g
