Notes & Details

Make it easy to portion product thanks to this AvaWeigh PCS15 15 lb. digital price computing scale, legal for trade with thermal label printer. Ideal for delis, bakeries, and supermarkets, this AvaWeigh digital price computing scale is a fast, affordable, and accurate way to portion your most popular items for sale! Great for frequent use in your commercial business, this scale is built to withstand high-intensity use in a fast-paced environment. It has a sturdy ABS plastic body and long-lasting stainless steel weighing plate.

Featuring easy-to-read LCD display screens with a convenient backlight on both the front and back, this scale is easy for both employees and customers to read while in use. Weighing food products is a breeze with its 25-key keyboard operating system, print keys, save, and quick memory features. Measuring items in 0.01 lb. increments, this scale can weigh items up to 15 lb., making it versatile for use in your business. The stainless steel platform provides a large space for weighing a variety of items and is easy to clean and maintain. This scale's system is capable of memorizing an item's name, life, ingredient, tare weight, and price, and can store up to 265 PLUs. PLUs can be entered individually or through a simple upload from a computer. This unit comes with an AC adapter and rechargeable batteries. It has a RS-232 data port and USB port allowing it to easily connect with a printer or computer.

For added convenience, this scale comes with a thermal label printer intended for quickly producing a barcode label for your product, streamlining your operation for efficiency and speed. Using your label printer will make it easy for customers to easily check out or see details like pricing, weight, date, and more. Ideal for low- to moderate- printing intensity, this printer can handle all of your shop's or restaurant's needs. To get you started immediately, the printer comes with power cords and a RS-232 cable for scale connection. It can print from 3/16" to 100" in length and 1" to 2 13/16" in width. It prints using heat, so ink is never required for use.

Readout Measurements:
15 lb. x 0.01 lb.
7 kg x 0.005 kg
