# Notes & Details

Equip your market or deli for fast, efficient weighing and pricing of products with this AvaWeigh thermal label printer for price computing scales! Made to work with your existing AvaWeigh PCS40 or PCS40T price computing scale (sold separately), this printer lets you print labels with all the information you need in real time. It can print at a speed of 2-4 IPS so you can be sure it will keep up with your low to moderate volume printing needs.

This printer is compatible with Windows 7 software, plus it comes with power cords and a RS232 cable for connection to your scale. Made for efficient use, this printer comes with a sensor on the left side and communication interfaces for USB, RS232, and cash drawers.

When you are choosing your labels, this printer is capable of processing many different types. Whether you are choosing roll fee, die cut, continuous, fan fold, tags, or tickets, this printer is up to the challenge. It comes fully equipped with a tear-off bar for precise cutting.
