Style	Dual Reading
Type	Platform Scales

Notes & Details

Utilize this AvaWeigh RS220LP 220 lb. low-profile digital receiving scale to ensure you're receiving the proper product amounts at your restaurant, hotel, or business. This unit is durable, with an 11 13/16" x 11 3/16", stainless steel platform and sturdy ABS base, this scale can stand up to wear and tear in any commercial or industrial environment. The low-profile design helps to easily move heavy items on and off the scale, and helps to save space when not in use. Other features include a large, backlit 3/4" LCD ABS remote display indicator to make reading weights a breeze! The display includes a mounting bracket with a 9' coiled cable to allow versatility and convenience in placement. The scale has the ability to weigh items in either pounds, pounds and ounces, or kilograms.

The AvaWeigh RS220LP receiving scale possesses the capability to weigh and tare, which deducts container weight and zeroes out for multiple ingredient measurement, making it adaptable to all of your potential weighing needs. It also has auto shut-off, which conserves battery power, a low battery indicator mode to prevent unexpected power loss, and an overload indicator to prevent damage to the scale. The AvaWeigh RS220LP includes adjustable feet to level your scale on any surface. The scale uses (4) "AA" batteries (sold separately) or an AC adapter (included).
