Platform Material	Stainless Steel
Plug Type	NEMA 1-15P
Power Type	Battery Electric
Style	Dual Reading
Type	Portion Control Scales Receiving Scales
Usage	Counting Weighing

Notes & Details

The AvaWeigh RSB250SS 250 lb. digital receiving / portion scale offers convenient features to help streamline your operation. With a 250 lb. capacity, this scale is perfect for portioning large items and for use as a receiving scale. Its large 12" x 12" platform accommodates a wide range of products, from food shipments to large boxes of retail inventory. The housing and indicator are made with heavy-duty ABS plastic to stand up to daily use in a receiving area or to handle heavy boxes. It also includes a handle built into the control panel for easy carrying and portability so that you can use your scale anywhere you need in your establishment. For even more convenience, the scale is designed for field calibration so you can measure accurately on the go. The scale also features four non-slip rubber pads on the bottom to ensure stability. Its stainless steel platform can be easily wiped down and cleaned, whether used in the receiving area or as a portion scale in the back-of-house!

The large 5/8" LCD screen is illuminated with a backlight for easy reading. It also includes an RJ45 port on the side, which allows you to connect an additional indicator (sold separately) with a 9' cable and a wall-mount display for easy hanging and readability. The accessory indicator (sold separately) also includes a hands-free wave tare functionality to make fast measurements or portioning. Scale operation includes a variety of easy-to-use features such as weigh, tare, hold, and count, and has the ability to weight in lb. or kg. to suit your needs.

This scale is powered by an included AC adapter or 4 AAA batteries (sold separately) for on-the-go applications. An auto-off feature helps save battery power, but is adjustable and can be turned off completely.

Readout Measurements:

250 lb. x 0.2 lb.

120 kg. x 0.1 kg.
