Notes & Details

The AvaWeigh RSB250T 250 lb. digital receiving scale offers convenient features to help streamline your operation. With a 250 lb. capacity, this scale is perfect for portioning large items and for use as a receiving scale. Its large 12" x 12" platform also accommodates a wide range of products, from food shipments to large boxes of retail inventory. The housing and indicator are made with heavy-duty ABS plastic to stand up to heavy duty use in a receiving area or handle heavy boxes.

For maximum portability, this scale also includes a handle built into the control panel for easy carrying so that you can use your scale anywhere you need in your establishment. For even more convenience, the scale is designed for field calibration so you can measure accurately on the go. The scale also features four non-slip rubber pads on the bottom of the scale to ensure stability. Its non-skid treaded steel platform keeps product from sliding making it easy and safe to use, as well as wipe down and clean! The large 5/8" LCD screen is illuminated with a backlight for easy reading. Scale operation includes a variety of easy to use features such as weigh, tare, hold, and count and has the ability to weight in lb. or kg. to suit your needs.

This scale is powered by an included AC adapter or 4 AAA batteries (sold separately) for on-the-go applications. An auto-off feature helps save battery power, but is adjustable and can be turned off completely.

Readout Measurements:

250 lb. x 0.5 lb. 110 kg. x 0.2 kg.
