## Notes & Details

Easily control portion sizes and improve consistency with the AvaWeigh WPC10SS 10 lb. IP68 waterproof digital portion control scale. This scale makes it a breeze to quickly weigh items and is a must-have for your business. It's made of stainless steel and features a stainless steel platform for weighing product, which allows it to withstand a commercial environment. Because of its IP68 waterproof rating, its design prevents damage from dust and long-term immersion and dish washing. The waterproof rating keeps the scale safe from drips and splashes from wet food too, from seafood to ice cream. It even keeps the scale safe when submerged under water, unlike other scales that feature only a removable platform for cleaning. By submerging the scale or running it through the dishwasher, you can ensure a thorough clean, which is a great way to boost sanitation and abide by health code procedures.

In addition to easy cleaning, this model ensures easy operation. Its easy-to-read LCD display includes a backlight for ample visibility and tare, check-weight, part count, and self-calibrating features. For power, the scale requires either a rechargeable battery or an AC adapter, both of which are included for immediate and sustained convenience.

Perfect for portioning ingredients or for pizza toppings prior to assembly, this portion control scale shows weight in kilograms, grams, pounds, and ounces. Adjustable feet on the underside of the scale and a leveling bubble help ensure that the platform is even for easy loading and weighing of a variety of products. From delis and cafes to bakeries and ice cream shops, foodservice operations benefit from using a portion control scale to keep ingredient measurements precise, which improves consistency across the menu. recipes and packages consistent. Consistency reduces waste and reduced waste lowers overall food costs.
