- Camlocking blade tensioning makes replacing blades a breeze
- Includes a 10 TPI (teeth per inch) steel blade
- Makes quick work of carcasses, large slabs of meat, and even bone

Notes & Details

Cut through large quantities of meat and bone with ease and precision with this Backyard Pro Butcher Series 22" stainless steel butcher hand meat saw! A sharp heavy-duty steel blade has the toughness to stand up to the busiest butchering operations while the 10 teeth per inch design makes for clean and consistent cuts.

An ergonomic plastic grip with tri-point frame connection is comfortable to operate with minimal hand fatigue during long periods of use. The camlocking blade tensioner makes changing out the blade quick and easy with little downtime.
