

336 SERIES

- **Type 1AA Vault Ladder**
375 lbs. capacity

- **Solid Aluminum Rivet Construction**

Solid aluminum rivet construction at critical stress points is stronger than tubular steel rivets and results in a longer service life for your ladder.

- **Rail Sleeves**

36" long rail sleeves protect the side rails from abrasive manhole rims and surfaces.

- **Vinyl Coated Hoop Ends**

Vinyl coated hoop ends provide a better lifting point than standard end caps.

- **Riveted Rung-To-Rail Design**

Our high-profile, slip-resistant D-shaped rungs are riveted to the side rails to facilitate replacement and are more durable than direct rung-to-rail designs.

- **Hoop Shoes**

Extra-large padded hoop shoes provide added grip and stability while giving you another easy grip point for ladder transport.

- **Aluminum Plates**

Heavy gauge aluminum plates reinforce the hoop shoe attachments and protect side rails from excessive damage.

ADD ON OPTIONS:

PROTECTIVE RAIL SLEEVE

Ladder racks are a ladders worst enemy! Bauer has designed a protective rail guard that absorbs the abrasion and vibration that is harmful to ladders. Your ladders will last longer!

AUTOMATIC LEG LEVELERS

Unlike our competition our auto levelers have been tested, approved, and are labeled as a 375 lbs capacity. So when installed on a Type 1AA, 375 lbs rated ladder the ladder rating is maintained.

ASSET MANAGEMENT TAGS

Serial number ID systems to effectively track inspections and repairs as well as the length of time a ladder has been in service.

POLY COATING

Bauer is the only manufacture to offer poly coating to provide added protection from harmful UV rays.

SUPERIOR SERVICE!

Bauer manufactures ladders strictly for cable and utility companies, not the home centers! We stock what you order and ship quick. Standard lead times are 2-3 days, not weeks! We ship quick and typically damage free! Bauer over-packages our shipments, decreasing the likelihood of aggravating freight claims.
