## Boltic Portable Electric Salamander Heater - 480V, 3 Phase, 30kW

Item #45BSAL48030K

### Technical Data

Length	25 13/16 Inches
Width	22 13/16 Inches
Height	39 13/16 Inches
Phase	3 Phase
Voltage	480 Volts
Wattage	30 Kilowatts
Air Throw	40 Feet
Color	Orange
Heating Area	3200 sq. ft.
Material	Metal

### Features

- Sheathed heating elements provide fast, high-efficiency heat output
- Temperature range of 41 to 100 degrees Fahrenheit
- Fan-only setting provides operational versatility
- Offers overheating protection and safety screens
- 10" x 1 3/4" wheels and long handle for optimal mobility

### Certifications

UL Certified

## Technical Data

Mounting Style	Freestanding Portable
Power Type	Electric
Temperature Range	41 - 100 Degrees F
Type	Heaters Salamander
Usage	Indoor
Wheel Size	10 Inches

## Notes & Details

Keep your workspace warm and comfortable with this Boltic portable electric salamander heater! Equipped with sheathed heating elements, this powerful unit delivers fast and high-efficiency heat output, ensuring that your space warms up quickly and efficiently. With a temperature range of 41 to 100 degrees Fahrenheit, you can easily adjust the heat to suit your needs. It achieves this temperature range with up to 30 kW of power. Plus, it boasts an ample 3,200 sq. ft. heating coverage area. In addition to its heating capabilities, this salamander heater features a fan-only setting, offering operational versatility for year-round use.

Thanks to the built-in safety features and its electric design, this heater serves as a great alternative to comparable propane and kerosene heaters; it requires no gas and includes no combustion. It comes with overheating protection and safety screens to prevent accidents and ensure peace of mind. The two 10" x 1 3/4" wheels and long handle provide optimal mobility, allowing the user to tilt it back, raise it onto its wheels, and roll it to the necessary location.

The durable metal construction ensures a long service life, while its easy installation and maintenance make it a convenient and reliable heating solution for your commercial or industrial space. Stay warm and productive with this Boltic portable electric salamander heater! This unit requires a 480V, 3 phase electrical connection for operation. The power cord is sold separately.
