Qty: _____ Date: _____ Approval: _____

Boltic 36" White Aluminum Air Curtain with Remote Magnetic Door Switch

Item #687BFM3509LY

Technical Data

Width	35 7/16 Inches
Depth	8 1/2 Inches
Height	9 1/16 Inches
Power Cord Length	59 Inches
Mounting Width	27 3/8 Inches
Amps	2.5 Amps
Hertz	60 Hz
Phase	1 Phase
Voltage	120 Volts
Wattage	300 Watts

Features

- Retains internal room temperature when external door opens
- Prevents pests from coming inside
- Aluminum construction creates a modern look
- Maintains a low noise level at only 49-52 decibels
- Features 2 speeds; 120V

Certifications

Technical Data

Air Velocity	2500 - 3150 FPM
Airflow Rating	530 - 647 CFM
Color	White
Installation Type	Surface Mounted
Material	Aluminum
Noise Level	49 - 52 dB
Plug Type	NEMA 5-15P
Speeds	2 Speed
Style	Back Door Drive-Thru Window Front Door
Type	Air Curtains

Notes & Details

Ensure your air temperature is controlled while keeping your entrance area free of pests with this Boltic 36" aluminum air curtain with remote magnetic door switch! Whether your internal temperature needs to stay warm and heated or the AC needs to be kept inside, this air curtain is a great solution for entry points exposed to outdoor elements. Reducing the infiltration of outside air will save you money in climate-controlled areas. The blast of air has an air velocity of 2,500-3,150 FPM, making it an excellent repellent and helping to prevent unwanted pests from entering your establishment. It also maintains a low level of noise at only 49 to 52 decibels and will not disturb guests!

This air curtain is ideal for drive-thru windows, concession stands, building entrances, walk-in coolers, and patios. For added convenience, the remote magnetic door switch automatically turns the fan on and off when the door opens and closes. The easy-to-clean powder coating creates a hard finish, providing exceptional durability. The air curtain also features 2 different operating speeds to accommodate your needs. This unit requires a 120V electrical connection for operation.
