Qty: _____ Date: _____ Approval: _____

Boltic Electric Ceiling-Mounted Garage / Unit Heater - 240V, 5,000W

Item #73AVF5000

Technical Data

Width	14 Inches
Depth	10 5/8 Inches
Height	12 1/2 Inches
Amps	20.9 Amps
Voltage	240 Volts
Wattage	3000 - 5000 Watts
Color	Black
Coverage Area	600 sq. ft.
Features	Adjustable Electronic Thermostat

Features

- Compact design saves space
- 3 settings with a temperature range from 50-95 degrees Fahrenheit
- Built-in adjustable thermostat with safety features
- Adjustable design with 3 installation angles and 4 louvers to direct airflow
- Coverage area of 600 sq. ft.

Certifications

Hardwired

ETL, US

Boltic

Technical Data

Included	Mounting Hardware
Mounting Style	Ceiling
Number of Heat Settings	3 Settings
Plug Type	Hardwire
Power Type	Electric
Temperature Range	50 - 95 Degrees F
Total BTU	17065 BTU
Type	Heaters

Notes & Details

Provide reliable heating to your commercial or industrial workspace with this Boltic electric garage / unit heater. This versatile, ceiling-mounted heater features 3 heat settings that range from 50-95 degrees Fahrenheit at 3,000-5,000W, and a maximum heat production of up to 17,065 BTU per hour. This unit heater is designed to heat areas efficiently while taking up minimal space. It requires a 240V connection for operation, and it's ideal for commercial locations like garages and workshops.

This compact garage heater is designed to provide both horizontal and vertical air flow with 4 individual, adjustable louvers that direct the flow of air up or down with a coverage area of 600 sq. ft. It includes a mounting bracket with hardware, and it can be installed at a 90-degree, 67.5-degree, or 45-degree vertical angle for maximum coverage to ensure comfort for customers and staff. This heater features a built-in, adjustable thermostat, a caution indicator, and a thermal cut-out safety feature to prevent overheating for added safety. It also features a power selection switch.
