

Cast-iron Horizontal Fill Drum Gauge

Product Images

Short Description

- Easily check liquid levels of horizontal drums
- For indoor or outdoor use
- Rugged zinc-plated, cast-iron body
- Ideal for petroleum products
- Cast-iron horizontal fill drum gauge no. 08532 with self-closing faucet no. 08902

Description

Horizontal Drum Cast-iron Fill Gauge allows you to easily check liquid level of a horizontal drum at a glance – no surprise re-orders or stock depletions. Use indoors or out. Sight gauge shows how much liquid remains in a 30 or 55-gallon (110L-200L) drum. Drum gauge installs easily by threading into a standard ¾" NPT bung hole and accepts any ¾" faucet. Rugged zinc-plated, cast-iron body stands up to heavy use. Heavy gauge glass tubing is protected with a chrome-plated housing and permits use with non-viscous oils. Buna-N seals make this unit ideal for petroleum product.

Product uses a cast-iron horizontal fill drum gauge no. 08532 with self-closing faucet no. 08902

Specifications

Model No	08533
UPC	697841069305
International Model No.	08533
Material Specifications	Cast Iron
Net Weight, lbs	3.0
Net Weight, kg	1.4
Cover Type / Closure Type	Manual
NPS/NPT inch	0.75
NPS/NPT mm	19
