This impressive feat is made possible with a triple-insulated design, which boasts a layer of high-density polyethylene, a layer of polyethylene and foam, and a final layer of food-grade polyethylene. From upscale receptions to festivals and fairs, venues will be easier to work with due to this cooler's reliability and convenience.

To ensure ease of use, this cooler features side rope handles with rubber comfort grips, making it comfortable to carry and transport. The exterior also includes indentations, while the rubber latches boast finger indentations for superior ergonomics.
