Notes & Details

Quickly transport compatible CaterGator food pan carriers (sold separately) with this CaterGator black dolly! Moving pans quickly and efficiently throughout your establishment is an imperative part of dinner service at your buffet, cafeteria, school, or restaurant. From your kitchen to your next catered event, this dolly is designed for long-lasting and efficient transportation that ensures your food arrives safely. This dolly can transport up to 300 lb. of stacked food pan carriers (compatible with top loading pan carriers and 5-pan front loading pan carriers). It features a central hole to easily drain liquid or steam that can escape when the carrier door is opened.

This dolly boasts 4" non-marking swivel casters to reduce damage to floors and features rounded corners to reduce impact damage on walls. Plus, two casters have brakes to secure the unit in place when needed. The dolly's lip is low enough to open the door to access contents while keeping the carrier secure.

Delivering quality products at a fair price, CaterGator is the ideal serving solution for catering businesses, hotels, food trucks, and concession stands. Upgrade your catering services with this insulated food pan carrier!
