

CaterGator Dash Black Front Loading EPP Insulated Food Pan Carrier with Ice Board - 5 Full-Size Pan Max Capacity

#215EPPEL5CKT

Technical Data

Length	26 Inches
Width	17 3/4 Inches
Depth	26 Inches
Height	19 5/16 Inches
Interior Width	13 1/8 Inches
Interior Depth	20 13/16 Inches
Interior Height	15 3/8 Inches
Closure	Latches
Color	Black
Compartment Type	Passive

Features

- Superior insulation maintains hot or cold temperatures for up to 4 hours
- Expanded polypropylene exterior offers impact, water, and chemical resistance
- Door opens 270 degrees and is removable for easy loading, unloading, and cleaning
- Fits up to 5 full size, 2 1/2" deep food pans (sold separately)
- Included cold board extends holding times beyond 4 hours

Certifications

Dishwasher Safe

Recyclable

Stackable

## Technical Data

Features	Dishwasher Safe Recyclable Stackable Water-Resistant
Insulated	With Insulation
Loading Style	Front Load
Material	Expanded Polypropylene
Pan Capacity	5 Pans
Product Line	CaterGator Dash
Shape	Rectangle
Style	Single
Temperature Retention	4 Hours
Type	Combo Kits Food Pan Carriers

## Notes & Details

Designed for transport, the CaterGator Dash end loading insulated food pan carrier provides the versatility and quality you need to safely deliver pans of food. It holds up to (5) 2 1/2" deep food pans and can accommodate various combinations of full, 1/2, and 1/3 size pans that are 2 1/2", 4", and 6" deep. It will work with most types of pans as well, including foil, plastic, and even stainless steel.

Because the carrier is made with expanded polypropylene (EPP), it offers superior temperature retention and maintains hot or cold food temperatures for up to 4 hours. As an added bonus, this carrier comes equipped with a blue full size ice board that is convenient and easy to use. This board will extend the temperature holding times of your cold foods beyond 4 hours by simply placing it in the freezer for up to 8 hours before placing in the carrier. The board will freeze to as low as 10 degrees Fahrenheit and will keep your food at a safe temperature below 41 degrees Fahrenheit. The board is filled with a conductive cooling gel, so you don't have to worry about buffering any water noise, or liquid leakage! It contains no cavities, meaning no matter how you place the board in the freezer, the board will freeze evenly. This board lays flat in carriers and comes equipped with distance knobs that prevent the board from sticking to the pan. A built-in handle conveniently lifts the board in and out of the carrier to avoid injury.

This insulated pan carrier features a professional grade construction made from expanded polypropylene (EPP), an insulated material with a high level of durability. This high-tech material is extremely lightweight and offers excellent impact, water, and chemical resistance. Not only a durable and lightweight option, this carrier is an eco-friendly choice for your business. It includes a large latch that quickly and securely locks the door to retain temperature. The door even extends to a full 270 degrees for easy access, and is completely removable for easy cleaning.

For convenient transport, the unit features handy grip edges on all 4 sides that are both durable and ergonomic. This design allows the carrier to stack with similar carriers and simplify storage.

Delivering quality products at a fair price, CaterGator is the ideal serving solution for catering businesses, hotels, food trucks, and concession stands. Upgrade your catering services with this insulated food pan carrier!
