

314 Waterproof Thermometer

The 314 Waterproof Pen-Type Thermometer is designed for use in the kitchen or light commercial setting. Small but sturdy, it is ideal for everyday use across a range of applications.

- Range: -58° to 300°F
- Accuracy: $\pm 2^\circ\text{F}$
- Field calibratable
- Auto off

DT300 Water Resistant Thermometer

The DT300 Water Resistant Digital Thermometer has data hold button to freeze a temperature reading making it easier to record. The auto switch off preserves battery life. The DT300 also has large, easy to read digits.

This is the perfect thermometer for foods cooked on the grill. The temperature is measured at the tip of the thermometer stem, so it is both convenient and quick. There is no need to leave it in the meat.

The DT300 Water Resistant Digital Thermometer is designed for tough use and a long life, as it is both water and shock resistant.

- Range: -58° to 300°F
- Accuracy: $\pm 2^\circ\text{F}$
- Field calibratable
- Data Hold
- Auto Off

550B High Temperature Thermometer with Water Resistant Boot

The 550B High Range Thermometer with Rubber Boot is fully certified for high temperature ranges. It is supplied with an (ARB300) protective rubber boot and comes complete with data hold functionality to freeze readings.

The 550B High Range Thermometer has a 5" long stem and features °F/°C switchable temperature scales and a data hold function. This Pocket Digital Thermometer includes a protective sheath with pocket clip and a (AB13) battery.

The 550B is quick and accurate and has a wide temperature range (up to +550°F) making it suitable for a wide range of cooking applications.

- Range: -40° to 550°F
- Accuracy: $\pm 2^\circ\text{F}$ to 392°F, 1.5% otherwise
- Data Hold
- Auto Off
- Field calibratable
