Notes & Details

This Cooking Performance Group G36T 36" griddle with an open cabinet base boasts three powerful 30,000 BTU stainless steel U-shaped burners with standing pilots for instant ignition that make it a fantastic choice for busy snack bars, concession stands and take out restaurants! Great for burgers, bacon, cheesesteaks, and other meats, this unit's thermostatic controls offer accurate temperature settings. The 3/4" thick, 36" wide polished steel cooking surface features an impressive 20" depth that is sure to deliver all of the workspace needed.

This griddle is made of stainless steel that is both durable and extremely easy to clean. It includes back and side splashes to protect your walls and countertops and even has a full width waste tray to provide you with a complete package of excellent performance and worry-free maintenance! Its flame failure protection system guarantees safety and peace of mind. It has a 3/4" rear gas connection and ships ready to connect to a natural gas supply, but includes a liquid propane orifice kit for simple field conversion.

The stainless steel cabinet base has an open storage area, perfect for holding commonly used griddle accessories like hot pads, cooking utensils, food pans, and more. It also comes with (4) 6" legs so that you can easily clean the floor underneath. The base holds the griddle at the perfect working height without using up valuable counter space. Perfect for applications that need an economical, high-output griddle but don't have the space for a countertop unit, this griddle and base combo unit provides the cooking power you need in a standalone design.
