## Cooking Performance Group 72CBRRBNL 72" Gas Radiant Charbroiler with 72", 4 Drawer Refrigerated Chef Base - 240,000 BTU

### Notes & Details

Easily keep up with customer demands for grilled burgers, chicken, steak and other dishes by cooking them on this Cooking Performance Group 72CBRRBNL 72" charbroiler with refrigerated chef base! This convenient equipment combination is great for any kitchen that wants to streamline their food prep process, providing refrigerated storage space, a charbroiler for cooking, and a place for the charbroiler to sit. You can keep a variety of ingredients in the chef base, pull them out for an order, and charbroil it all within the same workspace!

This particular charbroiler boasts 6 powerful 40,000 BTU stainless steel U-shaped burners with cast iron grates to provide even broiling, which also catch juices from your flavorful meats to produce searing flames and smoke for a great-tasting product. To prevent clogging, the angled sides help direct oil to the drip tray. The reversible cast iron top grates give your meats tantalizing grill marks, sporting a thin side that's perfect for searing and a thick side that's great for your more delicate foods. They can also be used in a flat or sloped position so that you can simultaneously cook various foods to the desired level of doneness!

Thanks to its stainless steel construction, a full width waste tray, and the ability to remove the cast iron grates, radiant covers, and stainless steel burners without tools, the Cooking Performance Group CBR72 72" charbroiler is both durable and extremely easy to clean! It has a 3/4" rear gas connection and ships ready to connect to a natural gas supply, but includes a liquid propane orifice kit for simple field conversion.

Not only do you receive the charbroiler, but you get a 4 drawer refrigerated base to place it on, as well! This particular chef base features a durable 1 3/4" stainless steel top that can hold up to 1100 lb. and is equipped with a marine edge to contain drips and spills for easy cleanup. For maximum capacity, each drawer can hold up to 2 full size food pans (sold separately). The 1/5 hp refrigeration system circulates R-134a refrigerant and is easily operated by its electronic temperature control, which allows you to set the unit to hold prepared foods and ingredients at temperatures between 33 and 41 degrees Fahrenheit. Plus, the cabinet is made of 20 gauge stainless steel inside and out for durability, and for greater ease of cleaning, it rests on (4) 4" casters so that you can move it away from the wall. This refrigerated chef base requires a 115V electrical connection for operation.
