Notes & Details

Cook up to 15 whole chickens at a time with this Cooking Performance Group CROE415D electric rotisserie oven! Great for supermarkets, delis, and other foodservice operations, this rotisserie oven allows you to show off your delicious meats while cooking them to perfection and serving them up hot and juicy for your customers. This unit includes 5 baskets to hold 15 whole chickens total, and it features a convenient cook and hold function that automatically switches to holding when the cooking cycle is complete. This helps to ensure that your chicken is cooked properly and that it will stay hot and ready to serve. Plus, with an individual basket capacity of 15 lb., each basket can be filled with not only chicken, but other poultry and meat, too.

This rotisserie oven has a dual glass design that allows for personalized merchandising and quick identification of cooking progress. It's easy to use with simple thermostatic controls, and it has a durable stainless steel construction that is easy to clean and maintain. This rotisserie oven also has a circulation fan that equally distributes heat to ensure that your chicken is cooked evenly and thoroughly.

The unit is stackable, allowing you to save space on the countertop while also increasing product yield within a condensed footprint. 2 stacking brackets are included. The included baskets and split grease tray are easily removable for simple cleaning at the end of the day. This rotisserie oven is perfect for any foodservice operation that is looking to add delicious chicken to their menu! It requires a 240V electrical connection for operation.
