

MAKE THE WORLD A GREENER PLACE

- Made with plant-based renewable resources
- Commercially compostable alternative to standard, double-sided poly and plastic cold cups. Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting
- Available in custom prints or Bare® stock designs to match any décor
- Wax coating creates firm, durable cup walls for cold beverages
- Secure lid seal prevents messy leaks
- Single-lid solution fits multiple cup sizes

Bare® Eco-Forward® Wax Treated Paper Cold Cups

MAKE THE WORLD A GREENER PLACE

Solo's wax treated paper cold cups meet the ASTM Standard D6868 for commercial compostability and are Cedar Grove compost facility accepted. Made with plant-based renewable resources, this Eco-Forward® paper beverage solution does not contribute to landfill volume when composted in a commercial composting facility. Wet waxed treated paper cold cups offer superior rigidity, making them ideal for cold, icy drinks and thicker beverage creations such as milkshakes and smoothies. Compostable in a commercial compost facility. Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting
