

Newcastle PC Series Powered Industrial Carts

With Fixed Lithium Power System

The smooth-moving, heavy duty cart with a lightweight, long-lasting power source - the best of both worlds

The PC Series cart is a mobile platform that not only provides the same flexible mobility as our lighter carts but allows for expanded possibilities with room for a laser printer, supplies, inventory and more. With a 30" or 48" tabletop, it can serve as a mobile workspace that has room for your laptop and your paperwork too.

Outstanding benefits

- › Rugged construction provides a capacity of 400 lbs.
- › Specialized casters allow for precise and easy movements with minimal force required, even at maximum capacity
- › With an additional folding shelf accessory, the tabletop can be expanded to a generous 66" x 24" (a total of 11 sf!)
- › The brawniest cart-based power solution available, able to drive a full complement of hardware for 8-12 hours or longer.
- › Ideal for heavy-draw equipment like multiple displays, laser printers and more.
- › Lithium provides lower total-lifespan cost, lighter weight, and 8x+ battery life.
- › At shift's end, simply plug in the cart to be ready for the next day.

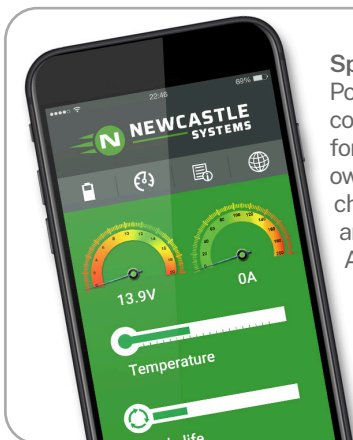

Newcastle PC Series Powered Industrial Carts

With Fixed Lithium Power System

POWERMAXX LITHIUM

Advanced tech meets brute strength. Get up to a decade of superior performance before needing even a battery change. Significantly lower cost of ownership compared with PowerMaxx SLA.

Special Lithium feature: PowerMaxx Lithium comes bluetooth-enabled for real-time stats via its own app. Data includes charge level, cycle life and more. Available for Android and Apple.

Optional printer shelf

Slotted support mast for adjustable shelves

Specialized casters make cart movements smooth and easy
