

SIZE FLEXIBILITY

EASY INSTALL

DURULITE INDUSTRIAL CC1875

ULTRA HEAVY DUTY CUT AND CAP IMPACT TRAFFIC DOOR

The Durulite Industrial CC1875 Cut and Cap Traffic Door offers the same great benefits as our well-known Durulite Industrial, but allows for sizing flexibility to fit in your custom application. The Durulite Industrial CC1875 can be installed in the most rugged applications as well as USDA and washdown environments. The Durulite Industrial CC1875 offers a strong, durable construction and makes installation easier all around. The V-Cam Hinge System can be installed with ease and eliminates the need for extended top seals. A reinforced leading edge, stainless steel spine and hinge adapter add to the strength and longevity, making the Durulite Industrial CC1875 a perfect solution for your facility for years to come.

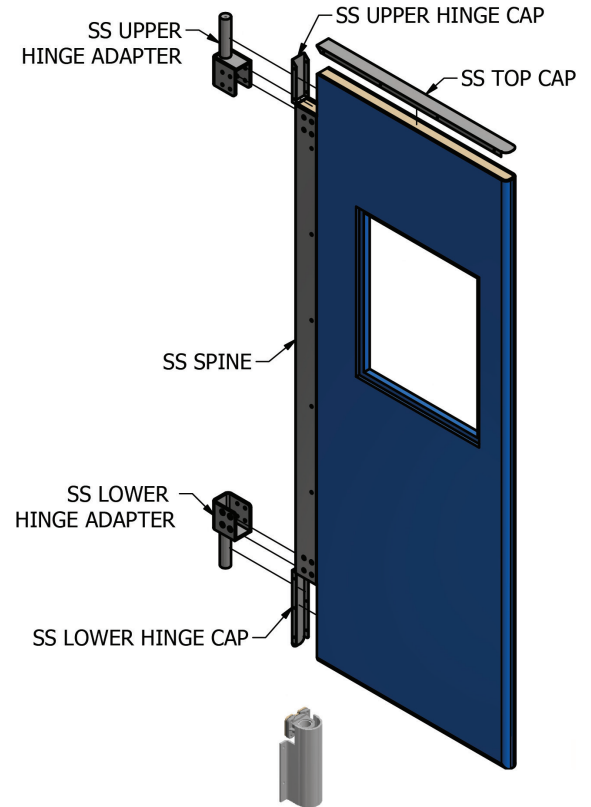

A CUSTOM FIT, LIGHTWEIGHT AND DURABLE PANEL THAT IS STRONG ENOUGH FOR THE HARSHTEST INDUSTRIAL ENVIRONMENTS

CONSTRUCTION

- Constructed with 1/4" thick rotationally molded polyethylene outer skin that retains its properties to -40°F
- Leading edge is reinforced with solid rigid PVC bar
- Back edge of door is externally reinforced with an 11 gauge stainless steel spine
- Overall panel thickness is 1-7/8"
- Doors can be sized up to 10' x 9'-11"
- Stainless steel spine and hinge adapters provide additional strength and allow for placement in washdown applications

FEATURES & BENEFITS

- USDA accepted durable gasketing is factory applied and easy to replace in field
- Optional ADA, non-sealed double pane and sealed double pane windows available
- Available accessories: polyethylene spring bumpers, polyethylene impact plates, stainless steel impact plates, lower hinge guards, double pane windows, limiting posts, stainless steel cladding, cane bolts, lock sleeves and push plates

COLOR OPTIONS:

**NO NEED
FOR EXTENDED
TOP SEALS!**

The Durulite Industrial CC1875 eliminates the need for extended top seals. The top seal is one continuous piece (shown above).
