Notes & Details

Making top-quality, delicious rice is a breeze with the Emperor's Select rice cooker and warmer! Boasting 27,500 BTU of power, this reliable unit can cook up to 70 cups of raw, uncooked rice in just 30 minutes. Its large cooking capacity and ability to cook multiple batches of rice at once make it ideal for any busy commercial kitchen. In addition to rice, this unit is capable of cooking grits, oatmeal, and macaroni and cheese. For added convenience, this unit automatically switches to "keep warm" mode once the rice is finished cooking. Not only does this ensure perfectly cooked rice every time, but it also keeps your rice warm and ready to serve! For your protection, this unit will automatically shut off if the flame goes out.

Featuring a white exterior housing, this unit offers long-lasting durability and a sleek, professional appearance. A removable, deep-drawn aluminum interior pot ensures your rice is evenly cooked while making it easy to clean at the end of the day. Thanks to its 2 steel fixed handles, this rice cooker is easy to transport to wherever is most convenient for your business. A removable stainless steel lid helps to contain the heat for maximum efficiency, ensuring your rice maintains an ideal serving temperature. This unit comes with a measuring cup to provide quick, accurate portioning of dry rice into the pot and a rice paddle, which allows you to efficiently mix, scoop, and serve your rice while preserving its consistency. A 1/2" gas connection is required for operation.
