## Notes & Details

Quickly process bread into individual slices with the Estella countertop electric bread slicer. This countertop bread slicer features a 1/2" cutting width, which will ensure that you can keep up with customer demand for avocado toast, sandwiches, hearty breakfasts, and any other dishes involving sliced bread! Great for sandwich shops, cafes, and bakeries, this motorized countertop unit will create uniform cuts on bread loaves that measure up to 6" x 18 3/4". The slicer can produce up 240 cuts per hour, meaning that you should never run out of product at an inconvenient time.

The unit's countertop design, measuring at just 29" x 24 3/4" x 26 1/2", will take up a minimal footprint in your kitchen while offering excellent production. It has built-in safety features to keep your employees from injuring themselves, and the unit itself is simple to operate. The Estella countertop bread slicer is constructed of stainless steel to hold up against the rigors of a commercial kitchen while remaining easy to clean. This unit requires 110V electrical connection for operation.
